

## The Expanding World of Nanofabrication – *an update from NanoFabrication Kingston*

December, 2017

Good day,

You are receiving this important update as a user of the NFK lab, as a supervisor of a user, or as someone who requested to receive these updates.

### **Holiday break**

Innovation Park and the NFK lab will be closed from **Dec. 22** at noon until **Jan. 2, 2018**. We are planning to shut down the tools over this time. If you are planning to use NFK over this period, **please let me know before the 19<sup>th</sup>**. NFK after-hours policies will apply.

### **We want to hear from you**

NFK is always interested in hearing about your research. Has your work at NFK led to a publication or conference presentation? If so, please let us know. We also welcome feedback about our tools and services. Feel free to forward your questions, concerns, complaints, or praise to [me](mailto:me), and we will do our best to respond.

### **Fabricating? Get financial assistance from CMC Microsystems**

CMC Microsystems helps Canadian researchers with their [micro/nano technology \(MNT\) fabrication needs](#). As part of this, CMC offers financial assistance to ease the cost of fabrication, which you can use to access NFK. Learn more about eligibility and how to apply at: <http://www.cmc.ca/en/WhatWeOffer/Make/MNTPortal/FinancialHelp.aspx>.

See you at the lab!

Graham Gibson

Lab Operations Manager, NanoFabrication Kingston  
Innovation Park at Queen's University
