

The Expanding World of Nanofabrication – *an update from NanoFabrication Kingston*

May 31, 2022

Good day,

You are receiving this important update as a user of NFK, as a supervisor of a user, or as someone who requested to receive these updates.

COVID-19

In accordance with directives from Queen's University, NFK will be lifting its mask mandate as of June 1. Please note that we will continue to provide ASTM level 3 masks at NFK to anyone who chooses to wear one, and we encourage you to stay safe. Please do not come to the lab if you are feeling sick! Up-to-date details regarding the University's guidance for COVID-related issues in research labs can be found [here](#).

Equipment news

Raith EBL/SEM:

The laser interferometer has been replaced and e-beam lithography is working as normal.

We want to hear from you

NFK is always interested in hearing about your research. Has your work at NFK led to a publication or conference presentation? If so, please let us know. We are constantly updating our [list](#) of peer-reviewed journal articles showcasing work done at NFK. We also welcome feedback about our tools and services. Feel free to forward your questions, concerns, complaints, or praise to [me](#), and I will do my best to respond.

See you at the lab!

Graham Gibson
